

a&o is successfully re-accredited after BSI assessments

a&o systems + services UK Ltd are pleased to announce that following an assessment of their Integrated Business Management System, a&o has once again been successfully re-accredited to the following internationally recognised quality standards: ISO 9001 (Quality Management), ISO 14001 (Environmental Management), ISO 27001 (Information Security) and BS PAS 99 (Integrated Management Systems).

The following a&o business functions were assessed during the visit: Field Services, HR, Supply Chain Logistics, Finance, Contract Administration and Facilities, as well as a review of our Business Management System controls (audits, complaints, Service Improvement Plans, customer satisfaction, change management, environmental controls, etc.).

These accreditations allow a&o to minimise business costs and risks; improve customer service and satisfaction; streamline their internal processes and improve communication. It also allows a&o to promote interoperability providing a competitive edge when informing customers and prospects of their services.

About a&o systems + services UK Ltd
